

Jatin Acharya

Oracle NetSuite Functional Consultant

jatinacharya786@gmail.com · linkedin.com/in/jatin-acharya-148032230 · github.com/AcharyaJatin20 · Pune, India

SUMMARY

Oracle NetSuite Functional Consultant delivering end-to-end ERP implementations — requirement gathering, fit/gap analysis, module configuration, functional testing, user training, go-live and hypercare. Configured across Financials, Order to Cash, Procure to Pay, Inventory & Warehouse. B.Tech (Hons.) CSE specialising in AI & ML, with applied computer-vision work alongside the ERP practice.

EXPERIENCE

EPIQ Softech India Pvt Ltd Pune, Maharashtra · On-site
Oracle NetSuite Functional Consultant · Full-time May 2026 - Present

- Delivering end-to-end Oracle NetSuite implementation projects, from module configuration through go-live.
- Providing ongoing functional support to live clients, resolving process and configuration issues as they surface.

Prateek Technosoft India Pvt Ltd Jaipur, Rajasthan · On-site
Oracle NetSuite Functional Consultant · Full-time May 2025 - May 2026

- Delivered end-to-end Oracle NetSuite ERP implementations: module configuration, functional testing, and go-live support across client engagements.
- Ran client requirement-gathering sessions and user training, owning system adoption from kickoff through handover.

Trainee Oracle NetSuite Functional Consultant Jan 2025 - Apr 2025

- Learned NetSuite configuration and ERP process analysis on live client implementations.

VVDN Technologies Gurugram
Internship Trainee May 2023 - Jun 2023

- First hands-on exposure to production data science and OpenCV, contributing to computer vision testing workflows.

NETSUITE SCOPE

MODULES Financials · Order to Cash · Procure to Pay · Inventory & Warehouse
LIFECYCLE Discovery · Fit / gap · Configuration · Functional testing · Training · Go-live · Hypercare & support

PROJECTS

Skin Disease Detection from Dermoscopic Images — MUJHACKX — 1st place Oct 2023 - Dec 2023
Collected and curated a dermoscopic image dataset of 10,000+ samples, then trained a CNN classifier for multi-class skin condition identification.
Python · TensorFlow · OpenCV · NumPy — Won first place at MUJHACKX. Team project.

Virtual Mouse — Hands-Free Cursor Control — Research team project May 2023 - Jun 2023
Real-time hand landmark tracking through a webcam, mapping gesture states to cursor position, click, and drag.
Python · OpenCV · MediaPipe — Sustained real-time tracking at 30 fps with reliable gesture recognition in normal lighting.

SyncSkills — Resume Analysis & ATS Optimisation — Minor project May 2023 - Jun 2023
Parse an uploaded resume, score it against a target job description for keyword coverage and structural compliance, return specific fixes rather than a score.
Python · NLP · Flask — Substantially reduced manual resume review time for test users.

EDUCATION

Manipal University Jaipur Jan 2021 - Dec 2025
B.Tech (Hons.) Computer Science & Engineering — Specialisation: Artificial Intelligence & Machine Learning · CGPA 9.37 / 10
CBSE XII 89% (Central Academy, Ajmer) · CBSE X 90% (All Saints, Ajmer)
Coursework: NetSuite ERP Implementation · Database Management Systems (Oracle) · Design and Analysis of Algorithms (NPTEL)

ACHIEVEMENTS

Dean's List of Excellence x5 — highest GPA, semesters 3, 4, 5, 6 and 7 · 1st place, MUJHACKX Hackathon · Student Placement Coordinator, AIML Department, MUJ · Certificate of Appreciation, ACM Student Chapter
